Mr. D.J. Shewchuk
TCRC – Running Trades Canada

Dear Mr. Shewchuk:

This confirms that Canadian Pacific Railway will shut down its U.S. and Canadian operations on both the 25th and 26th of December this year and again on January 1st and 2nd.

Christmas Day & Boxing Day

Our target shutdown times for train operations and associated activities on Wednesday, December 24th will be 1200 hours in the US and 1600 hours in Canada. Train operations will commence at 1200 hours on Saturday, December 27th, with related engineering, mechanical, security and other required pre-train operations activities beginning at daylight on the 27th, or the scheduled starting time, unless otherwise advised.

New Years Day & the day after New Years Day

Similarly, our target shutdown times for train operations and associated activities on Wednesday, December 31st will be 1200 hours in the US and 1600 hours in Canada. Train operations will commence at 1200 hours on Saturday, January 3rd, with related engineering, mechanical, security and other required pre-train operations activities beginning at daylight on the 3rd, or the scheduled starting time, unless otherwise advised.

All times are local.

While the vast majority of our operations will be suspended at the approximate times noted, there may be requirements for limited local operations to protect customer needs, interchanges, yards and commuter/passenger operations. Such requirements will be identified in the coming weeks as the details of our plan are developed.

These requirements will be communicated locally to the employees and will be consistent with the provisions of the applicable collective agreement.

Sincerely,

Brock M. Winter
Senior Vice-President, Operations
